Purpose

The Victorian Curriculum is the Foundation to Year 10 curriculum for Victorian government and Catholic schools for implementation from 2017. The Victorian Curriculum reflects Victorian priorities and standards for F–10 and incorporates the Australian Curriculum. It defines what it is that all students have the opportunity to learn as a result of their schooling, set out as a series of learning progressions. See <https://www.vcaa.vic.edu.au/curriculum/foundation-10/Pages/default.aspx>.

The Victorian Curriculum F–10 recognises that increasingly, in a world where knowledge itself is constantly growing and evolving, students need to develop, in addition to discrete discipline knowledge and understanding, a set of skills, behaviours and dispositions, or general capabilities, that apply across discipline content and equip them to be lifelong learners able to operate with confidence in a complex, information-rich, globalised world.

The Sacred Heart Catholic School Kew Curriculum Plan has been developed in light of the directions for Catholic education and principles of curriculum from the *Horizons of Hope* education framework: Catholic schools provide an excellent holistic education centred on the students and engaging them in authentic, purposeful learning; and incorporating the philosophy of the Victorian Curriculum F–10 and the Religious Education Curriculum Framework.

The curriculum is a statement of the purpose of schooling and defines what it is that all students have the opportunity to learn as a result of their schooling.

Principles

At Sacred Heart Catholic School Kew:

- All school based decisions pertaining to curriculum are referenced against the Victorian Curriculum.
- We believe in explicit teaching, direct and targeted instruction and aim to deepen students' understanding rather than provide surface knowledge.
- We place a deliberate emphasis on the acquisition of the basic skills of English and Mathematics (Literacy & Numeracy) and the language necessary to access learning. Impoverished language will impact on a student's ability to think about and inquire into their learning.
- The Sacred Heart Learning cycle is used in our planning and delivery of curriculum
- Learning intentions and success criteria are made clear.
- Sacred Heart School's SACRED goals are referenced when setting goals with students.
 - Specific; Achievable; Conferenced; Relevant; Evidenced; Defined
- We set high standards as we aim to educate the whole child, spiritually, physically, academically, emotionally and socially.
- An Inquiry based approach to learning is encouraged to foster deeper thinking, promote wondering and to allow for richer and more authentic learning. The inquiry is shaped in part by the students and the prior knowledge they bring to their learning.
- Contemporary tools and practices support our teaching & learning programs. It is our belief that ICT should be prominent not dominant.

Scope

Our school curriculum defines what it is that all students have the opportunity to learn as a result of their schooling at Sacred Heart Catholic School Kew.

At Sacred Heart Catholic School Kew, curriculum is enriched by the values, beliefs, perspectives and experiences of each member of the learning community when they engage actively with Catholic understandings of the human person. This orientation towards the person means that the process of curriculum design is shared with students, creating within them a sense of ownership and self-efficacy as learners. Our learning community fosters the conditions for students to have a voice in the design process, allowing them to make decisions about what they need to know and when.

Implementation

The Victorian Curriculum is implemented and used to frame learning that is responsive to student needs, the context of our school and the wider community. The school's curriculum planning is at the whole school level, domain level, year level and classroom level. At Sacred Heart Kew we aim to deliver a coherent, consistent and comprehensive curriculum.

The curriculum is designed and delivered from whole-school to level planning to individual teacher plans. These are created in a collaborative and supported environment. This ensures that a guaranteed and viable curriculum is driving student learning and lifting student outcomes.

Curriculum content

The school implements the Victorian Curriculum in order to provide students with a comprehensive and cumulative curriculum from Foundation to Year 10.

The school’s teaching and learning program is the school-based plan for delivering this common set of knowledge and skills in ways that best utilise local resources, expertise and contexts. Information technology is an integral part of our curriculum as a basic tool for learning. Supported by our governing body, Sacred Heart Catholic School Kew will develop strong processes for monitoring student progress and the application of appropriate explicit teaching and intervention strategies.

Sacred Heart Catholic School Kew will also take inspiration from the *Horizons of Hope* education framework. This framework supports Catholic school communities to engage in dialogue about the distinctive nature of learning and teaching, leading learning and enhancing Catholic identity in our schools. The framework is a living document that has been added to over the years with examples of practice from schools, as well as additional strategy statements in the areas of Leadership, Wellbeing, Diversity and Religious Education.

Religious Education has a central place in the curriculum at Sacred Heart Catholic School Kew, as it reflects our unique character of Catholic identity and focus as a Catholic school. The primary source for developing our Religious Education program is the Religious Education Curriculum Framework, developed by our governing body MACS.

Whole-school curriculum plan and time allocation

The following provides an outline of the learning areas and recommended weekly time allocation across F–6. Multiple learning areas are often part of a unit and not always taught as separate subject areas. This is ensured through time allocations which are in line with recommendations of the educational authorities.

Capabilities

The Victorian Curriculum includes both knowledge and skills. It is expected that the skills and knowledge defined in the capabilities will be developed, practised, deployed and demonstrated by students in and through their learning across the curriculum:

- Critical & Creative Thinking
- Ethical
- Intercultural
- Personal & Social.

The skills and knowledge defined in the capabilities will be developed in student learning across the curriculum areas where it is relevant and authentic to do so.

Curriculum organisation and implementation

The school's planning for curriculum draws on the Victorian Curriculum and Assessment Authority (VCAA) curriculum planning site for age-appropriate content, sequential learning patterns, and interrelated aspects of the content and skills and of the desired learning capabilities. Refer to the Pedagogical Framework.

All content is developed using the following documents:

- Sacred Heart Catholic School Kew policies for each of the learning areas
- Sacred Heart Catholic School Kew Religious Education Scope and Sequence: Religious Education Curriculum Framework
- Victorian Curriculum F–10
- Statement of Philosophy.

A variety of other resources, including online resources, will be available to support planning.

Evaluation

This Policy will be monitored and reviewed by the staff, in accordance with the School Improvement Plan or as required.
